M5884: NABA CORE MATRISOME
hsa04512: ECM-receptor interaction
R-HSA-3781865: Diseases of glycosylation
GO:0001944: vasculature development
R-HSA-3000171: Non-integrin membrane-ECM interactions
GO:0040007: growth
GO:0042327: positive regulation of phosphorylation
GO:0030198: extracellular matrix organization
GO:0001822: kidney development
GO:0030335: positive regulation of cell migration
R-HSA-3560782: Diseases associated with glycosaminoglycan metabolism
GO:0001667: ameboidal-type cell migration
GO:0001501: skeletal system development
GO:0003013: circulatory system process
R-HSA-3000157: Laminin interactions
R-HSA-76002: Platelet activation, signaling and aggregation
GO:0060322: head development
GO:0003205: cardiac chamber development
GO:0000902: cell morphogenesis
WP4917: Proximal tubule transport
GO:0045785: positive regulation of cell adhesion
GO:0001503: ossification
GO:0050678: regulation of epithelial cell proliferation
GO:0060541: respiratory system development
R-HSA-400042: Adrenaline,noradrenaline inhibits insulin secretion
GO:0051592: response to calcium ion
GO:0050931: pigment cell differentiation
GO:0098657: import into cell
GO:0051149: positive regulation of muscle cell differentiation
GO:0015698: inorganic anion transport
GO:0030029: actin filament-based process
GO:0032570: response to progesterone
GO:0060828: regulation of canonical Wnt signaling pathway
GO:0071364: cellular response to epidermal growth factor stimulus
GO:0034330: cell junction organization
WP2882: Nuclear receptors meta pathway
GO:0050953: sensory perception of light stimulus
R-HSA-500792: GPCR ligand binding
GO:0001707: mesoderm formation
GO:1903053: regulation of extracellular matrix organization
R-HSA-9013408: RHOG GTPase cycle
GO:0045936: negative regulation of phosphate metabolic process
GO:0032787: monocarboxylic acid metabolic process
GO:0061061: muscle structure development
GO:1905475: regulation of protein localization to membrane
GO:0014910: regulation of smooth muscle cell migration
GO:0009611: response to wounding
GO:0030308: negative regulation of cell growth
GO:0007163: establishment or maintenance of cell polarity
