
GO:0008203: cholesterol metabolic process
WP4877: Host pathogen interaction of human coronaviruses MAPK signaling
GO:0007616: long-term memory
GO:0071375: cellular response to peptide hormone stimulus
GO:0070201: regulation of establishment of protein localization
WP2355: Corticotropin releasing hormone signaling pathway
GO:0048514: blood vessel morphogenesis
GO:0001503: ossification
GO:0062012: regulation of small molecule metabolic process
GO:0050865: regulation of cell activation
GO:0006812: monoatomic cation transport
GO:0001936: regulation of endothelial cell proliferation
R-HSA-9006931: Signaling by Nuclear Receptors
