ZT12 NTg−ALF vs Tg−ALF
suppressed
Glycerolipid metabolism − Mus musculus (house mouse)
Parkinson disease − Mus musculus (house mouse)
Metabolism of xenobiotics by cytochrome P450 − Mus musculus (house mouse)
Drug metabolism − other enzymes − Mus musculus (house mouse)
Platinum drug resistance − Mus musculus (house mouse)
Chemical carcinogenesis − DNA adducts − Mus musculus (house mouse)
Lipid and atherosclerosis − Mus musculus (house mouse)
Human T−cell leukemia virus 1 infection − Mus musculus (house mouse)
