ZT0 Tg−ALF vs Tg−TRF
activated
suppressed
Fatty acid degradation − Mus musculus (house mouse)
Ribosome − Mus musculus (house mouse)
Fluid shear stress and atherosclerosis − Mus musculus (house mouse)
Metabolic pathways − Mus musculus (house mouse)
Glutathione metabolism − Mus musculus (house mouse)
Cortisol synthesis and secretion − Mus musculus (house mouse)
Platinum drug resistance − Mus musculus (house mouse)
Hepatocellular carcinoma − Mus musculus (house mouse)
Chagas disease − Mus musculus (house mouse)
