
GO:0009410: response to xenobiotic stimulus
GO:0019752: carboxylic acid metabolic process
GO:0019216: regulation of lipid metabolic process
WP4545: Oxysterols derived from cholesterol
GO:0008202: steroid metabolic process
R-HSA-211897: Cytochrome P450 - arranged by substrate type
GO:0006109: regulation of carbohydrate metabolic process
GO:0009725: response to hormone
GO:0050878: regulation of body fluid levels
R-HSA-71291: Metabolism of amino acids and derivatives
GO:0048871: multicellular organismal-level homeostasis
GO:0030522: intracellular receptor signaling pathway
GO:0052548: regulation of endopeptidase activity
hsa00140: Steroid hormone biosynthesis
GO:0044089: positive regulation of cellular component biogenesis
GO:2000379: positive regulation of reactive oxygen species metabolic process
GO:1905039: carboxylic acid transmembrane transport
GO:0072525: pyridine-containing compound biosynthetic process
WP2875: Constitutive androstane receptor pathway
hsa05171: Coronavirus disease - COVID-19
GO:0009167: purine ribonucleoside monophosphate metabolic process
GO:0019748: secondary metabolic process
WP410: Exercise induced circadian regulation
GO:0043065: positive regulation of apoptotic process
GO:0006826: iron ion transport
GO:0050890: cognition
GO:0001775: cell activation
GO:0006959: humoral immune response
GO:0031667: response to nutrient levels
GO:0006979: response to oxidative stress
GO:0050778: positive regulation of immune response
R-HSA-983231: Factors involved in megakaryocyte development and platelet production
GO:0072527: pyrimidine-containing compound metabolic process
hsa04976: Bile secretion
GO:1900542: regulation of purine nucleotide metabolic process
R-HSA-112314: Neurotransmitter receptors and postsynaptic signal transmission
GO:1901890: positive regulation of cell junction assembly
WP2431: Spinal cord injury
