

Metabolism of lipids
PPAR signaling pathway
Nuclear receptors meta pathway
steroid metabolic process
unsaturated fatty acid metabolic process
Fatty acid metabolism
Transport of small molecules
Insulin resistance
Biosynthesis of unsaturated fatty acids
Metabolism of steroids
negative regulation of lipid metabolic process
organophosphate biosynthetic process
AMPK signaling pathway
membrane lipid biosynthetic process
lipid localization
Estrogen receptor pathway
inorganic ion transmembrane transport
response to extracellular stimulus
response to hypoxia
phosphatidylinositol 3-kinase/protein kinase B signal
