

R-HSA-556833: Metabolism of lipids
hsa03320: PPAR signaling pathway
WP2882: Nuclear receptors meta pathway
GO:0008202: steroid metabolic process
GO:0033559: unsaturated fatty acid metabolic process
hsa01212: Fatty acid metabolism
R-HSA-382551: Transport of small molecules
hsa04931: Insulin resistance
hsa01040: Biosynthesis of unsaturated fatty acids
R-HSA-8957322: Metabolism of steroids
GO:0045833: negative regulation of lipid metabolic process
GO:0090407: organophosphate biosynthetic process
hsa04152: AMPK signaling pathway
GO:0046467: membrane lipid biosynthetic process
GO:0010876: lipid localization
WP2881: Estrogen receptor pathway
GO:0098660: inorganic ion transmembrane transport
GO:0009991: response to extracellular stimulus
GO:0001666: response to hypoxia
GO:0043491: phosphatidylinositol 3-kinase/protein kinase B signal transduction
GO:0007272: ensheathment of neurons
GO:0097190: apoptotic signaling pathway
GO:0006720: isoprenoid metabolic process
hsa00620: Pyruvate metabolism
hsa00280: Valine, leucine and isoleucine degradation
GO:0044057: regulation of system process
GO:1903829: positive regulation of protein localization
GO:0045778: positive regulation of ossification
R-HSA-877300: Interferon gamma signaling
hsa04750: Inflammatory mediator regulation of TRP channels
R-HSA-5673001: RAF/MAP kinase cascade
GO:0071280: cellular response to copper ion
R-HSA-9748784: Drug ADME
GO:0055088: lipid homeostasis
GO:0042060: wound healing
WP5304: Cholesterol metabolism
GO:0009743: response to carbohydrate
hsa05214: Glioma
M145: PID P53 DOWNSTREAM PATHWAY
GO:0072530: purine-containing compound transmembrane transport
GO:0098657: import into cell
WP2858: Ectoderm differentiation
hsa05017: Spinocerebellar ataxia
GO:1900542: regulation of purine nucleotide metabolic process
hsa04973: Carbohydrate digestion and absorption
WP706: Sudden infant death syndrome SIDS susceptibility pathways
R-HSA-6798695: Neutrophil degranulation
GO:0006766: vitamin metabolic process
hsa04071: Sphingolipid signaling pathway
GO:0007033: vacuole organization
GO:0006979: response to oxidative stress
